PROFESSIONAL SUMMARY

Recent Information Technology graduate with hands-on experience in Java, Python, Spring Boot, Django, SQL, PostgreSQL, MySQL, and web application development. Strong foundation in object-oriented programming, RESTful API development, and database management. Passionate about building scalable software solutions, learning modern technologies, and contributing to innovative software development projects.

TECHNICAL SKILLS

Programming Languages: Python, Java, SQL

Backend: Django, Django REST Framework (DRF), Django ORM, Spring Boot, Hibernate, JPA, JDBC

Frontend: HTML5, CSS3, JavaScript, React.js, Bootstrap, Tailwind CSS

Database: SQLite, MySQL, PostgreSQL

AI Tools: ChatGPT, Claude, GitHub Copilot

PROJECTS

Mockify – Mock Interview Platform — *Python, Django, OpenCV, SQLite, Speech Recognition*

- Developed a **web-based mock interview platform** using **Python, Django, and SQLite** with secure user authentication.
- Implemented **real-time face verification** using **OpenCV, Haar Cascade, and LBPH** before interview sessions.
- Built an **automated answer evaluation system** using **Speech Recognition, TF-IDF, and Cosine Similarity** to analyze spoken responses.
- Developed modules for **interview management, report generation, interview history, and performance analysis**.

Smart Email Assistant – AI Email Reply Generator — *Java, Spring Boot, React.js, Gemini API*

- Developed a **full-stack AI application** to generate **context-aware email replies** based on user input and tone.
- Built a **Spring Boot REST API** to handle requests and integrate with **Gemini API** for real-time response generation.
- Designed a **responsive React frontend** with dynamic state management for seamless user interaction.
- Implemented a **Chrome extension** to inject an AI reply button into Gmail and auto-fill generated responses.
- Deployed the application using **Render and Vercel**, ensuring a scalable and production-ready setup.

EXPERIENCE

Frontend Intern – Coding Savvy

Dec 2024 – Jan 2025

Project: ISKCON Sanjeevani – Encyclopedia System

- Contributed to the development of a **web-based encyclopedia system** using **HTML, CSS, JavaScript, and React** as part of a collaborative project team.
- Assisted in **UI development, bug fixing, and testing**, helping improve the functionality and usability of the application.
- Collaborated with team members by sharing progress updates and participating in project discussions, strengthening **communication and teamwork skills**.

EDUCATION

Bachelor of Engineering (B.E.) – Information Technology

Nov 2022 – June 2026

RMD Sinhgad School of Engineering

Pune, Maharashtra

CERTIFICATIONS

Django Web Development – Udemy

2026

Gained practical experience in building full-stack web applications using **Python, Django, PostgreSQL, and REST APIs**.

ACHIEVEMENTS

- Entrepreneurship Competition Finalist** – Selected among the top 20 finalists in a college-level entrepreneurship competition for the EV Travels startup idea.
- Head Boy – Saint Thomas School** – Led student activities, coordinated school events, and represented the school in inter-school programs.
